EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Tom Brown on 7/20/06.

The application has been amended as follows:

In the Claims

At claim 12, after the words "network device" on line 6, add the phrase, "wherein said identifier information is displayed on said network device, if no operation is performed for a predetermined time period when the network device displays a device setting, and".

Examiner's Remarks

The above Examiner's amendment was made to add a limitation to independent claim 12 that was previously added to independent claims 1 and 5 by the applicant in an amendment filed 5/4/05, thus making the independent claims consistent with each other.

Art Unit: 2182

2. The following is an examiner's statement of reasons for allowance: The prior art of record, taken alone or in combination, fails to teach or suggest displaying identifying information on a network device, if no operation is performed for a predetermined time period when the network device displays a device setting, in a network management system, in combination with the other recited claim elements.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
